TO WHOM IT MAY CONCERN,

Dear Mr/Ms:

I am writing to express my interest in the UI/UX Designer or equivalent position at your company, as advertised at job posting websites. With over two years of professional experience in the field of UI/UX design, I am confident in my ability to contribute valuable skills and insights to your dynamic team.

In my previous role as a Web UI Developer at Linkwise Technology Philippines Inc., I honed my design skills by collaborating with cross-functional teams to create visually appealing and user-friendly interfaces. I successfully led the redesign of Facility Monitoring System (FM Guard), and a newly build website of Linktronics resulting a good impact in user engagement. My ability to understand user needs and translate them into intuitive and aesthetically pleasing designs has been a consistent hallmark of my work.

I am proficient in using industry-standard design tools such as Adobe Creative Suite, Adobe XD, Illustrator, Photoshop, Figma, etc. Additionally, I stay abreast of the latest design trends and emerging technologies to ensure that the products I design not only meet current standards but also remain innovative and ahead of the curve.

One of my key strengths is my ability to communicate effectively with stakeholders at all levels. I actively seek feedback and incorporate it into my designs, fostering a collaborative and iterative design process. My commitment to creating seamless user experiences aligns with the dedication to excellence, and I am excited about the opportunity to bring my skills to your esteemed organization.

I believe that my experience and passion for UI/UX design make me a strong fit for your team. I am eager to contribute my skills and creativity to drive the success of your projects.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and skills align with the needs of your company. Please find my portfolio attached for your reference.

With best regards,

Kathlene Ros,

UI/UX Designer
